

Lasnek heavy duty ladder tray is designed using 1.5mm 316L - 1.4404 stainless steel and is suitable for larger cabling solutions demanding maximum lateral stability with minimum deflection. Manufactured using a 125mm side wall profile each 3 metre length comes complete with drain holes, pre-slotted rungs vertical and horizontal slots for quick and easy installation

Standard Features:

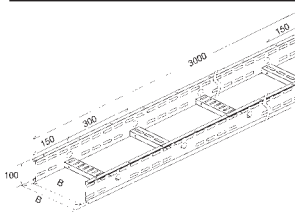

- n Material: 1.5mm 316L - 1.4404 stainless steel
- n Finish: Dull polish
- n Lengths: 3 Metre with 10 x 42mm x 24mm rungs
- n Height Profile: 125mm
- n Splice Connectors: Self locating complete with set of M10 fixings
- n Bends and risers: Complete with integral splice plate
- n Accessories: Wide range available

Options Available:

- n Finish: High Polish
- n Fixings: Ladder to support connectors
- n Fittings: Various radius configurations

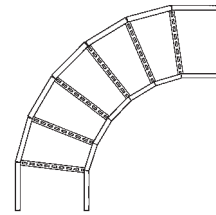

3m LENGTHS

125 mm High	Internal Width	Ref.
