

COMPACT ENCLOSURES - KCC

To complement the terminal and pushbutton boxes Lasnek offers a full range of hinged compact enclosures. Designed to the same exacting standards, each unit is seam-welded using 1.2mm or 1.5mm 304 - 1.4301 stainless steel and comes complete with galvanised back-plate, sealing strip, lock and barrel.

LARGE ENCLOSURES - KLE

Lasnek large stainless steel enclosures manufactured in 1.5mm & 2.0mm thick 304 - 1.4301 stainless steel. Available in either single or double door configuration all KLE enclosures are designed in a modular format and tested to IP65. In common with our smaller enclosures all KLE's come complete with appropriate locks, hinges and galvanised back-plate

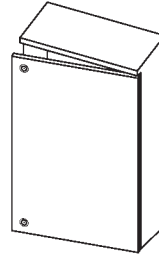

Standard Features:

- n Material: 1.5 / 2.0mm 304 - 1.4301
- n Construction: Fully welded - KCC
Modular - KLE
- n Backplate: Galvanised complete with mounting studs
- n Earth Studs: Pre-fitted to door and body
- n Lock: Complete with barrel and key (x2 on KCC-06 and above)
- n Canopy: Fully integral on all S15 - optional on KLE
- n Window: Standard 6mm polycarbonate on all VP units
